No. 13

WASHINGTON
GOVERNMENT PRINTING OFFICE
1912

The act of March 4, 1909, going into effect July 1, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 3, containing the entries for musical compositions and dramatico-musical compositions, is issued monthly. The entries are arranged alphabetically by titles, with the exception of classical music, collections having general titles, such as "Fünf studien," "12 études élémentaires," etc., and music the title of which is the name of a class without differentiating words (e. g., "Waltz," "Étude," etc.), which are arranged under the name of the composer instead of the title.

Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with piano accompaniment unless otherwise stated. Titles reading "Words by," "Music by," are to be understood as songs.

Under the act of March 4, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue, the Copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "E," Class E, Musical compositions; "D," Class D, Dramatico-musical compositions; "©" implies copyright registration of a published composition, followed by date of publication; "© 1 c." stands for copyright of an unpublished work, followed by date of receipt in the Copyright Office of the printed or manuscript copy, and "2 c." for 2 copies, followed by the date of their receipt. In case of contributions to periodicals only one copy of the issue or issues containing such contributions is required.

A list of the copyright renewals and extensions made for musical compositions under section 24 of the act of March 4, 1909, will be found at the end of this issue, immediately following the text.

A list of the musical compositions and dramatico-musical compositions used or licensed to be used for the manufacture of parts of instruments serving to reproduce mechanically the musical work, recorded under section 1 (e) of the act of March 4, 1909, will be found just prior to the index.

Each issue has an index to composers. The December number, completing the volume, will have a full annual index to both composers and proprietors. The subscription price for Part 3, which must be for the complete calendar year, is $1.00 for the year 1911, payable in advance to the Superintendent of Documents by postal money order, express order, or New York draft.

NOTICE.

THE RETURN TO COPYRIGHT CLAIMANTS OF PRINTED COPYRIGHT MUSICAL COMPOSITIONS.

Sections 59 and 60 of the "Act to amend and consolidate the acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collection of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided*, That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of last year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this act: *And provided further*, That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law.

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed musical composition deposited for copyright registration in the office of the Librarian of Congress during the years 1880 to 1889, inclusive, that any such author, copyright proprietor, or other lawful claimant may send to the Register of Copyrights his full name, the full title of the musical composition, the year in which copyright registration was made, and, if possible, the number under which such musical composition was entered for copyright, with a request for its return. On receipt of such information and request, such musical composition will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such musical composition should be made as early as possible during the year 1912. If no such application has been received during said year, such musical composition may be disposed of in accordance with the provisions of section 60 of said act.

RECIPROCAL PROTECTION OF MUSIC AGAINST UNAUTHORIZED REPRODUCTION BY MECHANICAL MUSICAL INSTRUMENTS.

The United States now has reciprocal copyright protection of music against unauthorized reproduction by mechanical musical instruments in the case of Belgium, Cuba, Germany, Luxemburg, and Norway. The President signed proclamations to this effect on the following dates: Belgium (June 14, 1911), Cuba (Nov. 27, 1911), Germany (Dec. 8, 1910), Luxemburg (June 14, 1911), Norway (June 14, 1911). These proclamations were printed on pages v–x of Part 3, volume 6, no. 7, and page iv of no. 12, of the Catalogue of Copyright Entries.

From information received through the Department of State, the legislation of the following countries did not on the date stated fulfill the reciprocal conditions specified in the proviso to section 1 (e) of the act of Congress of March 4, 1909: Austria (Mar. 10, 1911), Denmark (May 19, 1911), Italy (Aug. 8, 1911), Mexico (May 8, 1911), the Netherlands (Mar. 13, 1911), and Switzerland (Apr. 8, 1911).

MUSICAL COMPOSITIONS

1911

NEW SERIES, VOLUME 6

No. 14

This number contains the Volume Index

WASHINGTON
GOVERNMENT PRINTING OFFICE
1912

The act of March 4, 1909, going into effect July 1, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 3, containing the entries for musical compositions and dramatico-musical compositions, is issued monthly. The entries are arranged alphabetically by titles, with the exception of classical music, collections having general titles, such as "Fünf studien," "12 études élementaires," etc., and music the title of which is the name of a class without differentiating words (e. g., "Waltz," "Étude," etc.), which are arranged under the name of the composer instead of the title.

Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with piano accompaniment unless otherwise stated. Titles reading "Words by," "Music by," are to be understood as songs.

Under the act of March 4, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "E," Class E, Musical compositions; "D," Class D, Dramatico-musical compositions; "©" implies copyright registration of a published composition, followed by date of publication; "© 1 c." stands for copyright of an unpublished work, followed by date of receipt in the Copyright Office of the printed or manuscript copy, and "2 c." for 2 copies, followed by the date of their receipt. In case of contributions to periodicals only one copy of the issue or issues containing such contribution is required.

Each issue has an index to composers. This number, completing the volume, has a full annual index to both composers and proprietors. The subscription price for Part 3, which must be for the complete calendar year, is $1.00, payable in advance to the Superintendent of Documents by postal money order, express order, or New York draft.

RECIPROCAL PROTECTION OF MUSIC AGAINST UNAUTHORIZED REPRODUCTION BY MECHANICAL MUSICAL INSTRUMENTS.

The United States now has reciprocal copyright protection of music against unauthorized reproduction by mechanical musical instruments in the case of Belgium, Cuba, Germany, Luxemburg, and Norway. The President signed proclamations to this effect on the following dates: Belgium (June 14, 1911), Cuba (Nov. 27, 1911), Germany (Dec. 8, 1910), Luxemburg (June 14, 1911), Norway (June 14, 1911). These proclamations were printed on pages v–x of Part 3, volume 6, no. 7, and page iv of no. 12, of the Catalogue of Copyright Entries.

From information received through the Department of State, the legislation of the following countries did not on the date stated fulfill the reciprocal conditions specified in the proviso to section 1 (e) of the act of Congress of March 4, 1909: Austria (Mar. 10, 1911), Denmark (May 19, 1911), Italy (Aug. 8, 1911), Mexico (May 8, 1911), the Netherlands (Mar. 13, 1911), and Switzerland (Apr. 8, 1911).
